

Multi-Pure's Aqua Dome

Multi-Pure's Aqua Dome Drinking Water Appliance

Model MPAD

For Countertop Use

This compact unit may be installed on your countertop to provide cleaner, more delicious water right at the tap. Tested and certified to reduce a wide range of contaminants of health concern, the Aqua Dome Drinking Water Appliance is easy to install and use. Great for use in homes, apartments, RVs, boats, offices, health clubs, etc. For countertop use only.

Benefits and Features:

- Easy and convenient to use; provides delicious, clear, healthier drinking water whenever you need it.
- Better-tasting beverages -- coffee, tea, juices, and drinks of all kinds.
- Use for food preparation, improving the taste of fruits and vegetables.
- Highest quality water for cooking -- better pasta and sauces, soups, etc.
- Better quality water for mixing baby formula and cereal.
- Your pets will love it too!
- Guaranteed quality backed by an outstanding customer satisfaction guarantee and five-year warranty.
- Cost-effective solution to meet your budget.
- Attaches easily to your faucet without tools.
- Reliable protection for all of your family's drinking water needs.
- Costs much less than bottled water.

*Filter Life

Filter life will vary in proportion to the amount of water used and the level of impurities in the water being processed. Claims of capacity are not applicable to contaminants reduced by mechanical filtration because of broad variations in the quality and quantity of physical matter in your drinking water. Your Multi-Pure filter will clog, protecting you from these contaminants, and your flow rate diminishes. For contaminants reduced by adsorption, filter life/capacity is 750 gallons. It is recommended that the filter be replaced when the first of the following occurs: (a) annually, (b) the unit's rated capacity is reached, (c) the flow rate diminishes, (d) the filter becomes saturated with bad tastes and odors.

Specifications

Housing Composition	Polypropylene Plastic
Diverter composition	Chrome-plated brass
Tubing	PVC
Inlet	3/8" Stem
Outlet	1/4" Stem
Replacement Filter	Model CB6AD
Approximate Capacity	750 Gallons*
Approx. Flow Rate	0.75 gpm @ 60 psi
Water Pressure	100 psi max/30 psi min
Weight (Basic Unit)	2.92 lbs.
Height	9.5 inches
Body diameter	5.15 inches
Particulate Retention Size	Sub Micron (0.5 micron)
Housing Warranty	5 Years
